Notice of Creditable Coverage - October 2016

This Notice of Creditable Coverage contains important information about your current prescription drug benefit with the SAG-Producers Health Plan (Health Plan) and your options under Medicare's prescription drug coverage. Please read it carefully and keep it in a safe place with your important health care documents.

This information can help you decide whether or not you want to join a Medicare drug plan and can also help prevent higher premiums if you do decide to enroll. If you are considering joining, you should compare your current coverage, including which drugs are covered at what cost, with the coverage and costs of the various plans offering Medicare prescription drug coverage in your area.

Key information

- Medicare prescription drug coverage became available in 2006 to everyone with Medicare through Medicare Prescription Drug Plans and Medicare Advantage plans that offer prescription drug coverage. All Medicare drug plans provide at least a standard level of coverage set by Medicare. Some plans may offer more coverage for a higher premium.
- The Health Plan's existing prescription drug benefits have been determined to be "creditable coverage," which means that the Health Plan is expected to pay as much in claims for all participants as the standard Medicare prescription drug benefit.
- You do not need to join a Medicare drug plan as long as you have coverage under our Health Plan, because your Health Plan drug coverage is comparable to the standard Medicare benefits. If you do enroll in a Medicare drug plan, you will not be eligible for prescription drug coverage from the Health Plan.

When can you join a Medicare drug plan?

You can join a Medicare drug plan when you first become eligible for Medicare and each year from October 15th through December 7th. If you lose your SAG-Producers Health Plan prescription drug coverage at any time, you may be eligible for a two-month Special Enrollment Period to sign up for a Medicare drug plan.

Your choices and the consequences

If you do not enroll in a Medicare drug plan, you will continue to receive your current prescription drug benefits from the Health Plan as long as you are otherwise eligible for coverage. The Health Plan also covers hospital and medical benefits and does not require a separate premium for prescription drug coverage.

If you enroll in a Medicare drug plan, you will no longer receive prescription drug coverage from the Health Plan. However, you will continue to receive medical and hospital benefits as long as you continue to pay the Health Plan premium and are otherwise eligible for coverage. If you enroll in a Medicare drug plan and later drop that coverage, you can again receive your prescription drug coverage from the Health Plan, provided you are still otherwise eligible. Your Health Plan prescription drug coverage will be effective the first of the month after your Medicare drug plan coverage ends.

When will you pay a higher premium (penalty) to join a Medicare drug plan?

If you drop or lose coverage with the Health Plan and do not enroll in a Medicare drug plan within 63 continuous days after your coverage ends, you may pay a higher premium (a penalty) to join a Medicare drug plan later. If you go 63 days or longer without prescription drug coverage that is as good as Medicare's drug coverage, your monthly Medicare Part D premium may increase by at least 1% for each month that you did not have that coverage. For example, if you go 19 months without coverage, your premium for Medicare drug coverage may be at least 19%

higher than what you would have paid had you enrolled as soon as you lost your Health Plan coverage.

You may have to pay this higher premium for as long as you have Medicare drug coverage. You may also have to wait until the following October to join.
